HISTORIC AMERICAN ENGINEERING RECORD

Standard Lime & Stone Quarry, OIL/CLEANING SUPPLY BUILDING

HAER No. WV-49-L

Location: Standard Lime & Stone Quarry, west-central portion of plant area, County Route 27, Millville, Jefferson County, West Virginia.

UTM: 18.4353570.260100
Quad: Charles Town, West Virginia

Significance: The Oil/Cleaning Supply Building is one of three intact surviving examples of vernacular support structures used at the Standard Lime & Stone Quarry plant.

Description: The building is a one-story, one-room, wood-framed structure with a gable roof and concrete floor, measuring approximately 18 by 58 feet. The building is clad in corrugated metal. It is in good condition and unaltered but is covered by vegetation. There is a five-foot by five-foot, shed-roofed gasoline tank shed on the north side of the building.

History: The building was constructed by the Standard Lime & Stone Company between 1920 and 1935. During the late 1930s, it was used as an oil, kerosine, gasoline, and solvent storage facility.
